RP-1878

4/5th pound, coarse roulette, coded **131**

The strip is not common, and the **4/5** denomination is interesting. The OUNCE denomination strips were coming with the “Series of 1971”, and it seems that the companies were anticipating this change-over, since 4/5th pound calculates to 12.8 ounces, and the company could quietly decrease the package size to 12 ounces at that time. I suspect that **RP-1878** dates from late 1970, to early 1971.
